MotiveWave PC/Windows [Updated]

MotiveWave is the most comprehensive of all the available Elliott Wave software. It is easy and powerful. It is a powerful game of intellectual chess, a market game where one plays his hand against that of the market. Features: 288 studies in 114 markets 18-chart bar types (6 consolidated) 142 quantifying indicators 19 forex pairs 3 chart templates 28-chart trader 147-currency pairs with 24 exchange rates 216-currencies-with-6-exchange rates 12 currency pairs 3 business sectors, 4 asset classes, 2 countries, 11 econometric models Trading tools: Incl. technical analysis: Elliott Wave, Gann, Condor, and Fibonacci (197 charts) Commodity research: Trends and Cross-Trends, Regressions, Correlations, Leading Indexes, Dollar Estimate, and Swing Candles More: MotiveWave Description: MotiveWave is the most comprehensive of all the available Elliott Wave software. It is easy and powerful. It is a powerful game of intellectual chess, a market game where one plays his hand against that of the market. Features: 288 studies in 114 markets 18-chart bar types (6 consolidated) 142 quantifying indicators 19 forex pairs 3 chart templates 28-chart trader 147-currency pairs with 24 exchange rates 216-currencies-with-6-exchange rates 12 currency pairs 3 business sectors, 4 asset classes, 2 countries, 11 econometric models Trading tools: Incl. technical analysis: Elliott Wave, Gann, Condor, and Fibonacci (197 charts) Commodity research: Trends and Cross-Trends, Regressions, Correlations, Leading Indexes, Dollar Estimate, and Swing Candles More: There are a lot of trading platforms out there, mostly for Windows and macOS. However, finding a good trading platform software or knowing which one is perfectly suited for your needs can be a daunting task. While we can't offer much in terms of pure advice on the matter, we can recommend you a very flexible and well-rounded trading platform called MotiveWave. Marketing itself as "the most advanced Elliott Wave software available," MotiveWave is a comprehensive trading platform that aims to strike the perfect balance between customization, user-friendliness, and advanced features. For those who don�

What's New in the MotiveWave?

MotiveWave is designed to be a fully customizable analytical tool for stocks, commodities, ETFs, indices, and much more. Features: Elliott Wave Analysis The Elliott Wave principle is the most important tool used by technical traders and fundamental traders alike. In terms of the mode of operation, it is the inverse of the fundamental analysis, and it, therefore, takes the highest importance in most of the trading platforms out there. Harmonic or Double Harmonics Analysis Not a new trend trading software, MotiveWave has a metric ton of them. From downward trends, upward trends, corrections, waves, candlesticks and so on, the platform offers you enough tools to satisfy your needs. Over 300 Detailed Studies There are literally hundreds of studies available, and you can use them to create your own customized analysis. It's easier than you might think, and it's free. Personalized Toolbars Go from crowded to convenient in just a few clicks. MotiveWave is very well customizable, and that is why you can change the look of each tool and even change the design of the whole platform. Charting Tools Enjoy a variety of charting tools (line, candlestick, bar, and even indicators), as well as the ability to customize your own image files. Advanced Alerts Watch out for your money: by receiving alerts as soon as the value of a certain indicator on a chart passes through a certain level, you can always catch the right moment to take an action. Command Line A command line has been included for those who prefer the old-school method. 18 Built-In Charts Nothing is too much for MotiveWave. It has 18 built-in charts, and they support the major charting suites out there such as RDX, X-stream, Metatrader, Paprika, and others. Data Export and Import Export your data in both text and .csv format, and import it into third-party software and charting platforms. Free Dashboards MotiveWave comes with a ton of free dashboards. You can even custom-make your own and add it to the platform in seconds. IMPORTANT!: MotiveWave works best if you use the latest versions of Java and MATLAB. The reason for this is because the components are very sensitive to certain versions of these programs and therefore they won't work if you use an old version of Java,

System Requirements For MotiveWave:

Minimum: OS: Microsoft® Windows® XP Service Pack 2 (32-bit) Processor: Intel® Pentium® 4 (3.0 GHz) / AMD Athlon® 64 (2.2 GHz) / AMD Opteron™ (1.8 GHz) Memory: 1 GB RAM Graphics: nVidia® GeForce® GT 330 (256MB) / ATI Radeon™ HD 3650 (1024MB) / Intel® Integrated Graphics Media Accelerator (IGMA) Hard Disk: 12 GB available space DVD
